SUPPLEMENT TO
REPORT NO.

1. Schwerin (T46), 25X1A

a. A corps headquarters, formerly located at the corner of Schlossgarten and Parkweg, has been dissolved and is believed to have been transferred to Neur-
brandenburg. The buildings are now being used for officers' billets and clubs.

b. Now resident in Schwerin are Genleit Trufanov and Generals Billich and Yefremov. The latter makes frequent trips between Billich's house and SMA headquarters. Billich is said to be in charge of administration. A fourth general is expected to arrive in Schwerin.

c. Two German police companies are being trained near the railroad station at Buchholz. New barracks have been constructed for them and 10-12 old type Soviet tanks have been placed at their disposal for training purposes.

2. Mecklenburg Airfields, 25X1A

a. Damgarten (F13): Hangars and shops have been turned over to a shipyard servicing and building fishing vessels, scheduled to open in mid-December. The field itself has not been released for other purposes. (2 Dec).

b. Greifswald (P72): Hangars, barracks, and shops have been demolished. The field is completely neglected but has not been returned to the German economy. (7 Dec).

c. Anklam (U99): The field, which has no runways, is occasionally "cleared for", but all installations have been demolished. (13 Dec).

d. Tutow (P60): Small areas on the north and northwest sides of the field are occasionally used, and three PC-2 were seen there on 11 December, but most of the field is weed covered and installations no longer exist.

e. Prenzlau (W04): Hangars and shops have been demolished. Dwellings on the field's southern edge are occupied by German civilians. The field is occasionally mowed and was briefly used by Soviet aircraft during summer 1948. (17 Dec).
